CAREER OBJECTIVE

Results-driven Full-Stack Developer with hands-on experience architecting and shipping 10+ production web applications using Next.js, React, Node.js, TypeScript, PostgreSQL, Prisma ORM, and Redis. Passionate about engineering high-performance user interfaces, scalable REST APIs, optimized database schemas, and robust caching layers for high-impact software products.

SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, SQL, Python, C++
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Shadcn UI, Redux Toolkit, Responsive Design
Backend: Node.js, Express.js, RESTful APIs, Prisma ORM, Serverless Functions, Middleware
Databases & Caching: PostgreSQL, MongoDB, Redis (In-Memory Caching, Rate Limiting)
Cloud & Deployment: Vercel, Cloudflare R2, Supabase, Firebase, Serverless Architecture
Authentication & Security: JWT, OAuth, Role-Based Access Control (RBAC), Cookie-Based Sessions
Payments & Integrations: Stripe, SSLCommerz, External REST APIs, Webhooks, Postman
Tools & Practices: Git, GitHub, VS Code, Technical SEO, Core Web Vitals, Database Indexing
Interpersonal: Problem-Solving, Team Collaboration, Communication, Quick Learner, Adaptability

INDEPENDENT DEVELOPMENT EXPERIENCE

Independent Projects

Dec. 2023 – Present

Independent Full-Stack Developer

- Engineered and deployed 10+ production full-stack web applications using Next.js, React.js, Node.js, TypeScript, PostgreSQL, Prisma ORM, and Redis, collectively serving 20,000+ monthly active visitors.
- Designed modular REST APIs, type-safe database schemas with Prisma, and Redis caching layers, cutting average response latency by over 35%.
- Optimized frontend performance through server-side rendering (SSR), dynamic code splitting, and technical SEO, maintaining 85+ Google PageSpeed Insights scores.
- Managed production deployments on Vercel and Cloudflare, integrating automated CI/CD workflows and real-time monitoring.

PROJECTS

RentNest | *Next.js, React, TypeScript, Express.js, PostgreSQL, Prisma ORM, Redis, Stripe* [Live](#) | [GitHub\(client\)](#) | [GitHub\(server\)](#)

- Engineered a multi-role property rental platform supporting tenants, landlords, and admins with search, booking, and lease management.
- Modeled relational schemas with Prisma ORM and integrated Redis for session storage and query caching, improving data retrieval speed.
- Implemented cookie-based JWT authentication with role-based access control (RBAC) and Stripe payment gateway for automated rent processing.

TuitionPort | *Next.js, TypeScript, Node.js, Express.js, PostgreSQL, Prisma ORM, Cloudflare R2* [Live](#) | [GitHub](#)

- Developed a full-stack tutor matching marketplace serving 1,000+ registered students and tutors with real-time course discovery.
- Architected a scalable backend with Express and Neon PostgreSQL, using Prisma ORM for type-safe database migrations and relations.
- Implemented Cloudflare R2 for secure, cost-effective media asset storage and optimized search filters for instant tutor matchmaking.

Flowditor | *Next.js, React, Node.js, Google AI Studio, Tavily API, REST APIs* [Live](#) | [GitHub](#)

- Built an AI-assisted content research and editing suite that automates research aggregation, drafting, and multi-format publishing.
- Integrated Google AI Studio LLMs and Tavily API to generate structured articles, and implemented automated publishing to WordPress via REST API.

CheetahType | *Next.js, React, Supabase, Firebase, Tailwind CSS* [Live](#) | [GitHub](#)

- Engineered a real-time typing speed platform supporting 3,000+ monthly users with live WPM/accuracy tracking and instant feedback.
- Integrated Firebase real-time leaderboards and optimized client-side state transitions to guarantee zero input lag during active tests.

EDUCATION

East Delta University

Bachelor of Science in Computer Science and Engineering

Chattogram, Bangladesh

Jan. 2022 – Dec. 2025

LANGUAGES

Bengali: Native

English: Professional Working Proficiency
